NEW DIMENSIONS FOR AVK BALL CHECK VALVE IN STAINLESS/ACID PROOF STEEL, AISI 316

Dear Business Partner

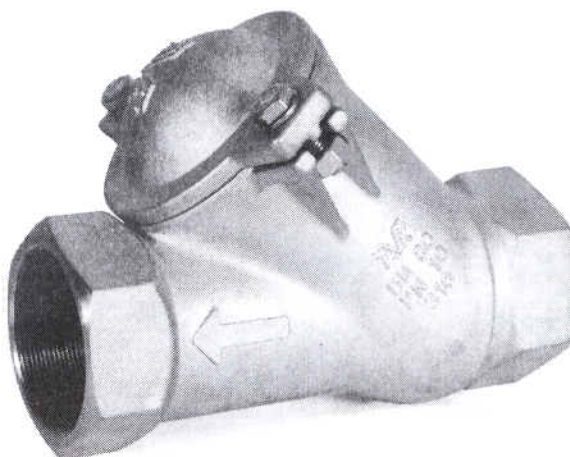

Stainless steel becomes more and more used within the sewage business and as a result hereof, AVK has now extended the range of ball check valves with AISI 316 bonnet and body.

Two dimensions, DN65 and DN80 have been added to the existing range, and the complete range is now: DN32, DN40, DN50, DN65 and DN80.

All valves in AISI 316 have the same patented design as the existing AVK series 53 in ductile iron and are available with internal BSP thread in 1¼", 1½", 2", 2½", and 3" accordingly.

The ball check valve is designed and tested in accordance with EN12050-4.

The data sheet is attached this product information.
